

IDAHO DEPARTMENT OF FISH AND GAME

Jerry M. Conley, Director

FEDERAL AID IN FISH RESTORATION

Job Performance Report

Project F-73-R-12

Subproject I: FISHERY RESEARCH SUPERVISION
Study I, Job I: Fishery Research Supervision

by

Virgil K. Moore
Fishery Research Supervisor

August 1990

JOB PERFORMANCE REPORT

State of: Idaho

Name: FISHERY RESEARCH SUPERVISION

Project No.: F-73-R-12

Title: Fishery Research Supervision
and Planning

Subproject No.: I

Job No.: I

Period Covered: March 1, 1989 to February 28, 1990

Objectives:

To provide administrative support, direct field operations and provide technical overview of all fishery research activities within the Department.

To provide administrative support and technical overview of all resident fish management activities within the Department.

To provide computerized data systems support, statistical review and modeling assistance for all Department fisheries programs.

To prepare all Federal Aid documents and reports for the Department's fishery program.

Activities:

The Fishery Research Manager supervised 20 permanent staff, working 14 projects, in the fisheries research program. Field review of 6 projects was accomplished. All required Federal Aid documents were reviewed and prepared. As the Department Federal Aid Coordinator over DJ/WB projects, all documents, plans, and agreements were reviewed.

Coordination with universities on eight graduate student projects was accomplished. Two new projects were developed and agreement reached with sponsor universities.

All technical fishery reports produced by the Department were edited and finalized (a total of 48 reports) by the technical typist.

The Resident Fishery Manager coordinated all Department management activities, including detailed regional work plans, edited regional reports, and provided administrative support for regional budgets. He also supervised hydropower activities related to Federal Energy Regulatory Commission actions and Warmwater fisheries enhancement program. Considerable time was spent on work related to the ten-year angler opinion survey (1978-1987) and direction for the 1991-1995 Fisheries Management Plan.
